I enjoy lounging, chasing flies, treats, and helping my human hold Zoom calls. One night I couldn't keep dinner down and woke up my human to let her know. She called a vet with the freshbenies Pet Telehealth service. After that, I got new yummy food, extra attention and even some new treats! I ❤️ that vet and am back to ensuring everyone knows I'm in charge. – Hugo, bossy Ragdoll Cat

I ruvvvv how my mom saves money on food, treats and toys for ME with Bark Box! Plus, they get delivered right to my door so I get to bark at the delivery guy! – Murray, the security expert

“Over Labor Day weekend, I played so hard I ran into a table. How embarrassing! That night, mom noticed my left ear was swollen - I wouldn't let her touch it. It was late, but she used the freshbenies Pet Telehealth service to chat with a vet. After sending some pictures, mom was relieved we didn't need an emergency vet trip on a holiday weekend! Plus, the vet even gave instructions to take care of my ear while it healed. Thanks, freshbenies!”
