Health Savings Account (HSA) - only with HDHP – MTBCPO13H

This is how an HSA works:

A health savings account (HSA) is a health care account and savings account in one. The main purpose of this account is to offset the cost of a qualifying high deductible health plan (HDHP) and provide savings for your out-of-pocket eligible health care expenses - those you and your tax dependents may have now, in the future and during your retirement.

After you set up your account, it's yours to keep, even if you change jobs or retire.

Once your HSA is established, money is contributed to your account by you, La Hacienda Treatment Center or friends and family; and you can then use your HSA dollars tax-free to pay for eligible health care expenses. You save money on expenses you're already paying for, like doctors' office visits, prescription drugs and much more. Best of all, you decided how and when to use your HSA dollars.

Why is it a good idea to have an HSA?

HSAs benefit everyone who is eligible to have this account, including single individuals, families and soon-to-be retirees. You save money on taxes in three ways:

- Tax-free deposits - The money you contribute to your HSA isn't taxed (up to the IRS annual limit).
- Tax-free earnings - Your interest and any investment earnings grow tax-free.
- Tax-free withdrawals - The money used toward eligible health care expenses isn't taxed - now or in the future.

Setting aside pre-tax dollars into your HSA means you pay fewer taxes and increase your take-home pay by your tax savings. You save money on eligible expenses that you are paying for out of your pocket. The amount you save depends on your tax bracket. For example, if you are in the 30% tax bracket, you can save \$30 on every \$100 spent on eligible health care expenses.

HSA funds roll over from year to year and accumulate in your account. There is no "use-it-or-lose-it" rule with HSAs, and you decide how and when to use your HSA funds, which can be used for eligible expenses you have now, in the future or during retirement. And when you have a certain balance in your HSA, investment opportunities are available.

2025 IRS Individual annual limit \$4,300; Family limit \$8,550.

While this type of insurance isn't fun to think about, it can be a vital lifeline for your family.
